CANCELLATION OF THE EVENT

Heavy Rescue Slovenia, powered by Rescue Days.

Over the years, Heavy Rescue Slovenia training has grown into something more than just cutting cars. Event includes various activities from training, fair, symposium and many other accompanying events and all events were always full. Of course, HRS would not be what it is without our firefighters from all over Slovenia and all those who have been supporting us for many years. Last but not least, there are firefighters from abroad, instructors

from Slovenia and abroad, exhibitors, manufacturers of firefighting equipment, visitors to the event and many more. In fact, we have become the largest event of its kind in southern Europe. We tried to somehow put the activities we are planning in a framework where we could meet the minimum hygiene measures to contain the Covid-19 epidemic. Unfortunately, we find that this is almost impossible to do without interfering with the scope of the event, which we do not want. Therefore, we decided to act responsibly and postpone the event Heavy Rescue Slovenia 2020 (21) to 2022.

The event will take place on 20, 21 and 22 May 2022 in Laško.

However, to get through this long period until May 2022, we decided to prepare a Mini HRS in May 2021, but more on that later.

Above all, in the new year, we wish you a return to a normal life!

See you in Laško!
